DECEMBER 28, 2019—JANUARY 1, 2020

Awaken Your Creative Heart

A New Year's retreat for inspiring your next year with Damini Celebre

Bring in the New Year by awakening your creative heart, your intuition, and your inner vision. During this retreat, we will use spiritual and creative tools that speak the sacred language of your creative heart. Guided visualization, shamanic journeying, and intuitive painting are powerful ways to explore your hopes and dreams and to untangle obstacles or limitations that might prevent you from realizing your innermost desires. Over five days we will hold space for deep introspection, community-inspired exercises, journaling, and experiencing how to work with intention.

When you awaken your creative heart, you get unstuck, invite flow, manifest your dreams, strengthen your intuition, transform, and SHINE! Join us and connect with the best and brightest part of you — your creative heart.

This retreat is open to everyone who wants to awaken their heart and make time for creative expression (instead of learning a new painting technique).

For over 25 years, **Damini Celebre** has been integrating creative arts with the healing arts. Drawing from her many years of experience as an artist, healer, and educator, Damini wrote the book *Painting the Landscape of the Soul: A Journey of Self Discovery*, BrushHeart Press, 2014. Damini facilitates expressive art workshops online and throughout the United States.
