THE SEED

CONVERSATIONS FOR RADICAL HOPE

Join Quakers and other seekers to explore visions of the world
growing up through the cracks of our broken systems.

Welcome to Season 4 of *The Seed*! Join us as we explore what spiritual alignment looks like in this moment of escalating social and political upheaval and violence: How do we cultivate discernment to stay the course and stay connected to our leadings? How are we being called to transform ourselves and our communities to break down systems of oppression and embody new ways of being?

Meet the Host: Dwight Dunston

Dwight is a West Philly-based facilitator, hip-hop artist, educator, & activist. He's brought his creativity and compassion to community centers and venues all over the world. His belief that our stories hold the key to our healing and wholeness has inspired his work, which supports individuals to feel more rooted and heart-opened to themselves and others.
