Embracing Spiritual Gifts

On Campus: Sep 20-22, 2024

A weekend workshop to explore and nurture spiritual gifts as an antidote to isolation, polarization, despair, and other deep ills, with Adria Gulizia.

In our time together, we will explore the gifts and roles laid out in Ephesians 4: the gifts of the apostle, the prophet, the evangelist, the shepherd, and the teacher. We will reflect on the blessings and challenges of each and how they manifest among us today, focusing particularly on how we nurture these gifts into flourishing, suppress them into extinction, or twist them into toxicity by the spiritual environments we create in our meetings, churches and organizations. We will also make time to celebrate what the Spirit is doing in ourselves and in each other.
